User Manual: Course Advising Application

1. Editing the user profile:

- a. From the main screen, select the edit profile button on the right side.

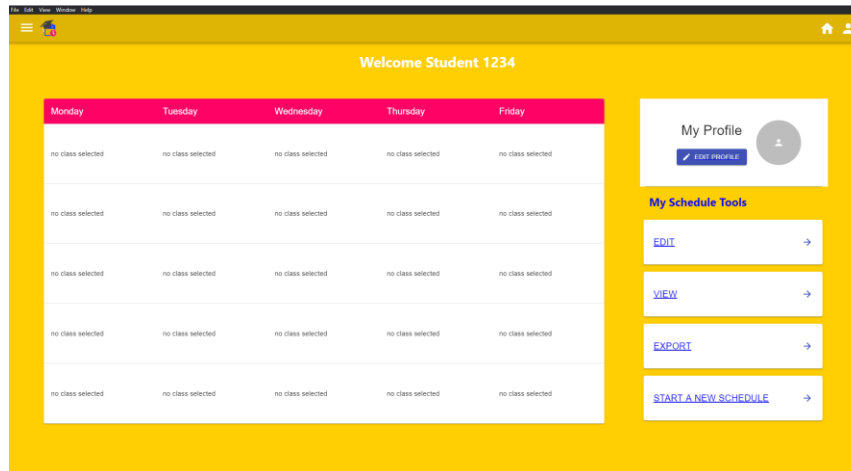

- b. Enter name, class level, major and minor information.

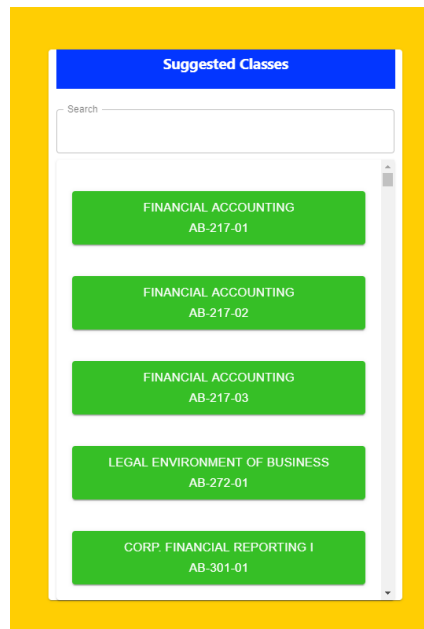

The screenshot shows the "Onboarding Page" form. It has a yellow background. The form contains the following fields and buttons: "Name:" followed by a text input field; "Class Level:" followed by a dropdown menu; "Major:" followed by a dropdown menu with "Major" selected; "Minor:" followed by a dropdown menu with "Minor" selected; "Classes:" followed by a "VIEW/ADD" button; and a "SAVE" button at the bottom.

- c. Next to classes, select View/Add.
- d. Select classes that have already been completed.

- e. Click save.
- 2. Edit the current schedule:
 - a. From the main screen select Edit under schedule tools.

- b. On the right side there will be a suggested classes panel.

- c. Use the search bar to narrow down the classes by course title or course code.
- d. Clicking classes should add them to the timesheet (This function was not completed).
